

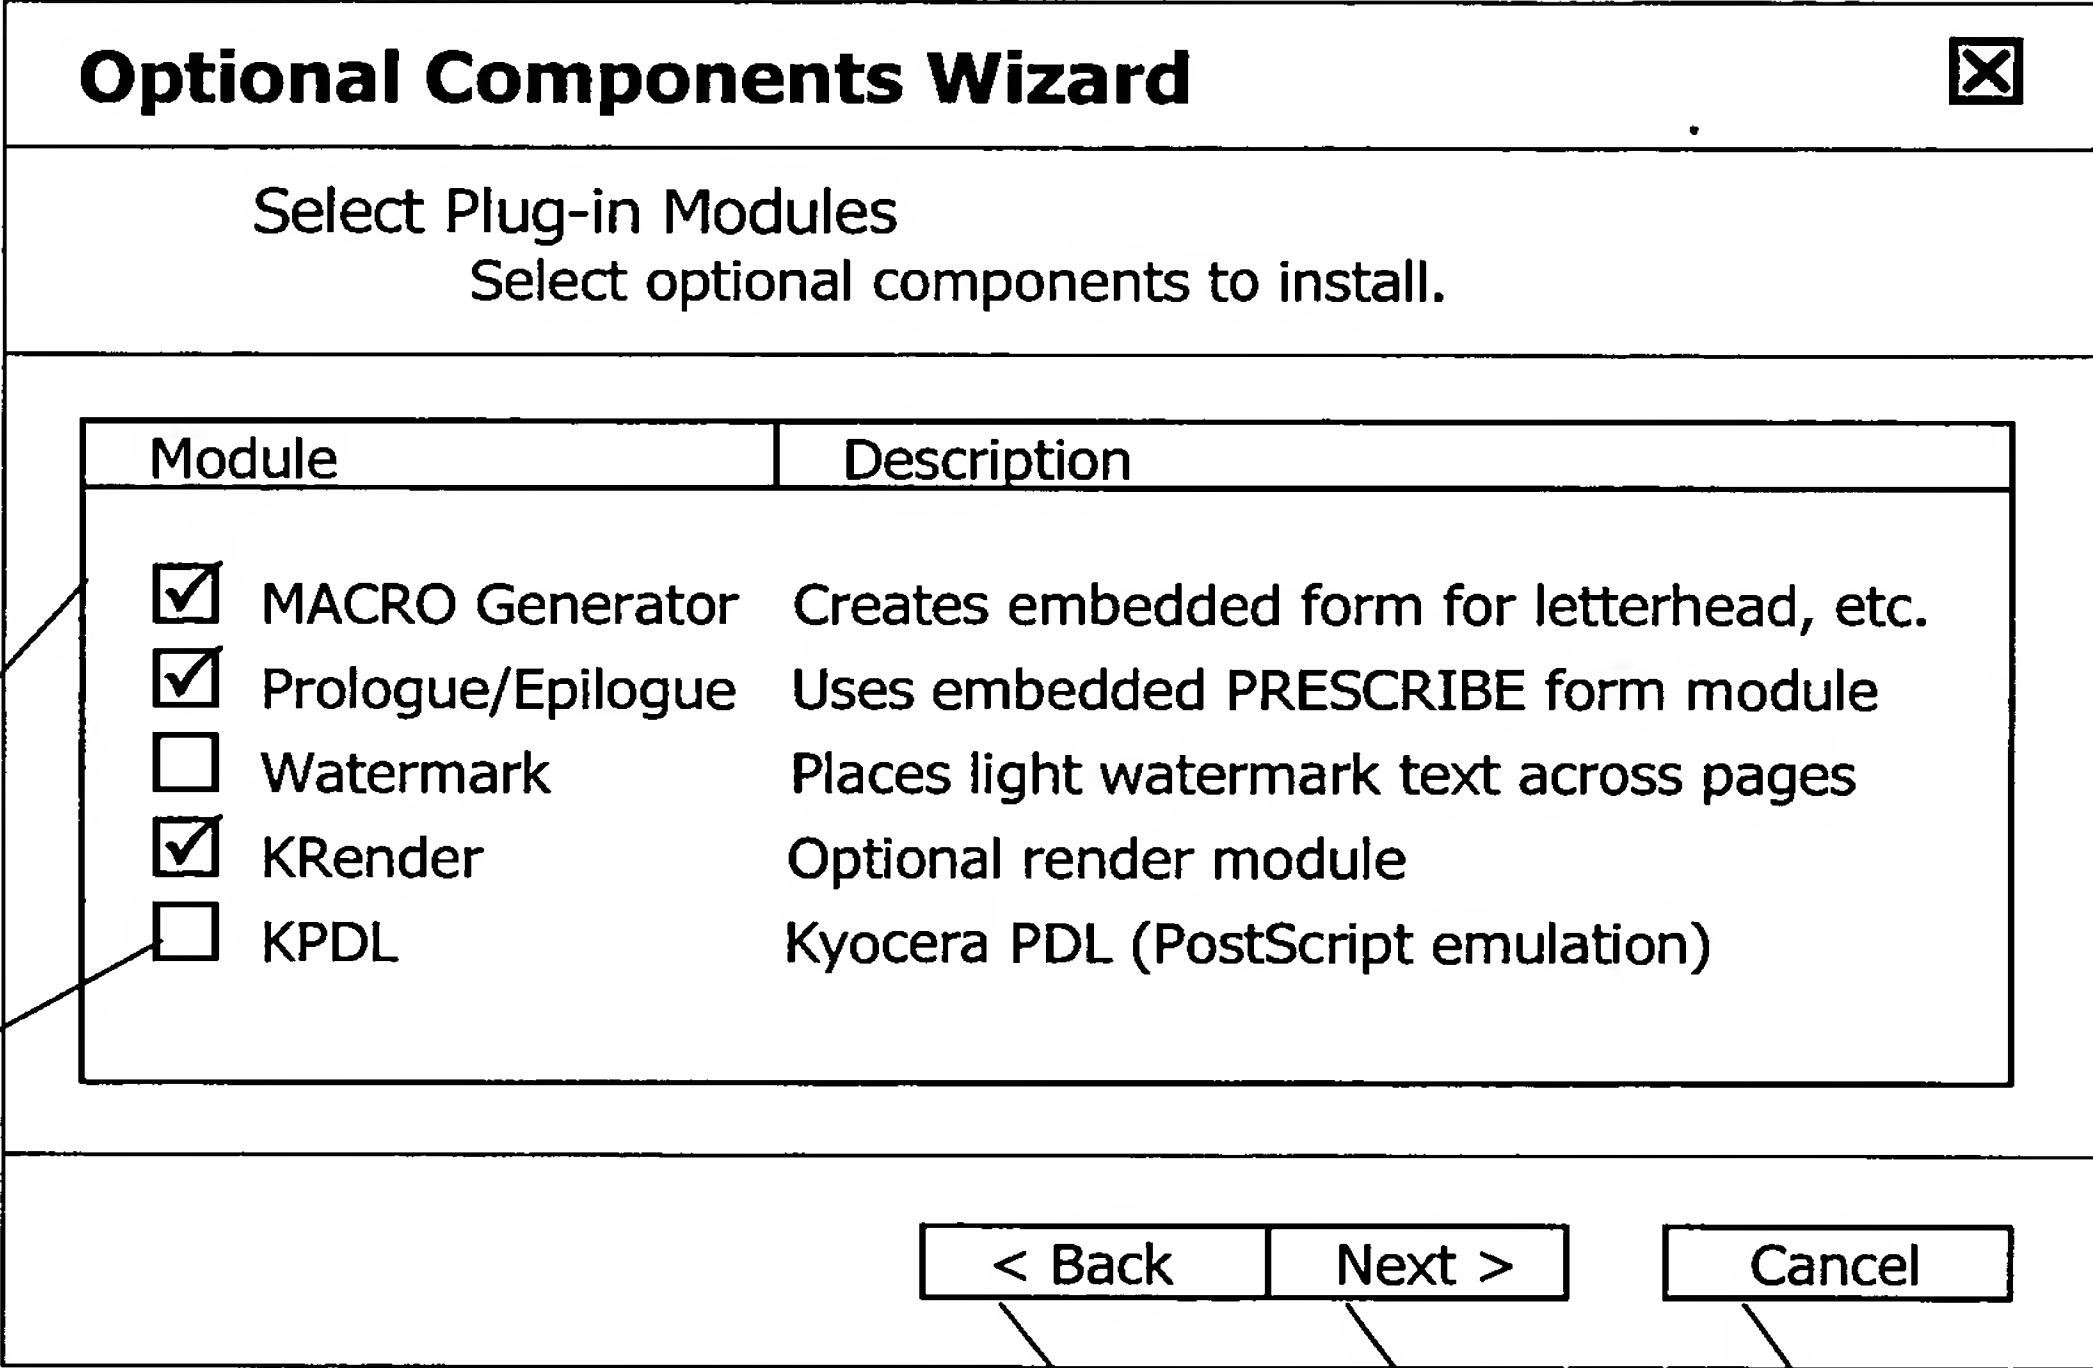

FIG. 1

200

The image shows a software dialog box titled "Optional Components Wizard" with a close button (X) in the top right corner. Below the title bar, the text "Select Plug-in Modules" is followed by the instruction "Select optional components to install." The main area contains a table with two columns: "Module" and "Description". The table lists five modules: "MACRO Generator" (checked), "Prologue/Epilogue" (checked), "Watermark" (unchecked), "KRender" (checked), and "KPD L" (unchecked). To the left of the table, there are two callout lines: one labeled "210" pointing to the "MACRO Generator" row, and another labeled "215" pointing to the "KPD L" row. At the bottom of the dialog, there are three buttons: "< Back", "Next >", and "Cancel". Below these buttons are three callout lines: one labeled "220" pointing to "< Back", one labeled "230" pointing to "Next >", and one labeled "240" pointing to "Cancel".

Module	Description
<input checked="" type="checkbox"/> MACRO Generator	Creates embedded form for letterhead, etc.
<input checked="" type="checkbox"/> Prologue/Epilogue	Uses embedded PRESCRIBE form module
<input type="checkbox"/> Watermark	Places light watermark text across pages
<input checked="" type="checkbox"/> KRender	Optional render module
<input type="checkbox"/> KPD L	Kyocera PDL (PostScript emulation)

< Back Next > Cancel
